Setup - Wampserver64 3.3.0

License Agreement

Please read the following important information before continuing.

Please read the following License Agreement. You must accept the terms of this agreement before continuing with the installation.

A "Combined Work" is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the "Linked Version".

The "Minimal Corresponding Source" for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.

The "Corresponding Application Code" for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

1. Exception to Section 3 of the GNU GPL.

Setup - Wampserver64 3.3.0

Information

Please read the following important information before continuing.

When you are ready to continue with Setup, click Next.

--- Installation of Wampserver ---

BEFORE proceeding with the installation of Wampserver, you must ensure that certain elements are installed on your system, otherwise Wampserver will absolutely not run, and in addition, the installation will be faulty and you need to remove Wampserver **BEFORE** installing the elements that were missing.

Make sure you are "up to date" in the redistributable packages VC9, VC10, VC11, VC13 , VC15 and VS16.

See --- Visual C++ Packages below.

--- Do not install Wampserver OVER an existing version, follow the advice:

- Install a new version of Wampserver: <http://forum.wampserver.com/read.php?2,123606>

If you install Wampserver over an existing version, not only it will not work, but you risk losing your existing databases.

--- Install Wampserver in a folder at the root of a disk, for example C:\wamp or D:\wamp. Take an installation path that **does not include spaces or diacritics**; Therefore, no installation in c:\ Program Files\ or C:\ Program Files (x86\)

We must **BEFORE installing, disable or close some applications:**

- **Close Skype** or force not to use port 80
